LIVING in HARMONY

Harmony Public Schools
is a charter school system in Texas serving
kindergarten through 12th grade.

However, Harmony Public Schools (HPS) is more than just a name. It is our calling. It is for what we are striving. It is our reputation.

Harmony joins things that go together well. Harmony is when you feel happy. Harmony is when people are all getting along as one. Harmony is the flow of life.

When you harmonize different opinions or ideas, you bring them to some kind of

agreement. It's challenging to harmonize the different interests of a whole classroom full of children, but that's part of what a great teacher does. And that's precisely what the great teachers do at HPS each and every day.

Harmony Public Schools (HPS) is where everything and everyone work together to create a very positive learning environment along with a rewarding and singular workplace experience.

It's a fact that we are all more alike than we are different. In effect, this means the more a person understands and admires traits and talents within him or herself, the more this person is likely to understand and admire about the rest of humanity. The fabric of humanity is woven of many threads and each of us can enrich and uplift the whole as best we can.

TEACHING in HARMONY

The Harmony Schools

focus mostly on science, computer technology, engineering, and mathematics (STEM) in order to prepare U.S. students to compete more rigorously and effectively in the global economy.

- Our students come to class each day ready to learn. They come prepared, focused, and motivated. They enjoy the learning process and are active participants in the learning process.
- Our students are respectful. Of authority. Of each other. Of themselves. And of our learning environment.
- Our parents value education, support us and their children, engage and understand that HPS genuinely has their child's best interest at heart.
- Our administrators provide our teachers with goals and expectations, encouragement, advice along with the resources to do the job. And, to do it right.

H A

Harmony School students participate in a wide variety of different competitions because of the school's emphasis on extracurricular activity. Competitions in which many Harmony Schools are especially active include MathCounts, Science Olympiad, FLL (First Lego League), DISTCO (Digital Storytelling Contests) and Science Fair.

WORKING
in
HARMONY

At Harmony Public Schools

our teachers make a lasting impact on the lives of students daily. In a SAFE, dynamic, educational culture they are equipped with necessary resources and supports to make our most valuable asset — the student — succeed.

Harmony's vision is to lead our students from the classroom into the world as productive and responsible citizens and even Nobel laureates.

Does Harmony Public Schools sound like the place where your teaching career can rise and flourish? Are you ready to bear the major challenges and important responsibilities of nurturing the next generation's Best and Brightest?

We also invite you to explore our website at HarmonyTx.org. It will provide you with information about HR, recruitment, development, as well as many other useful resources.

Or call Harmony Public Schools at 713.343.3333.

Do it today. And, please...
don't be tardy.

- 100 percent College Acceptance Rate

LEARNING
in
HARMONY

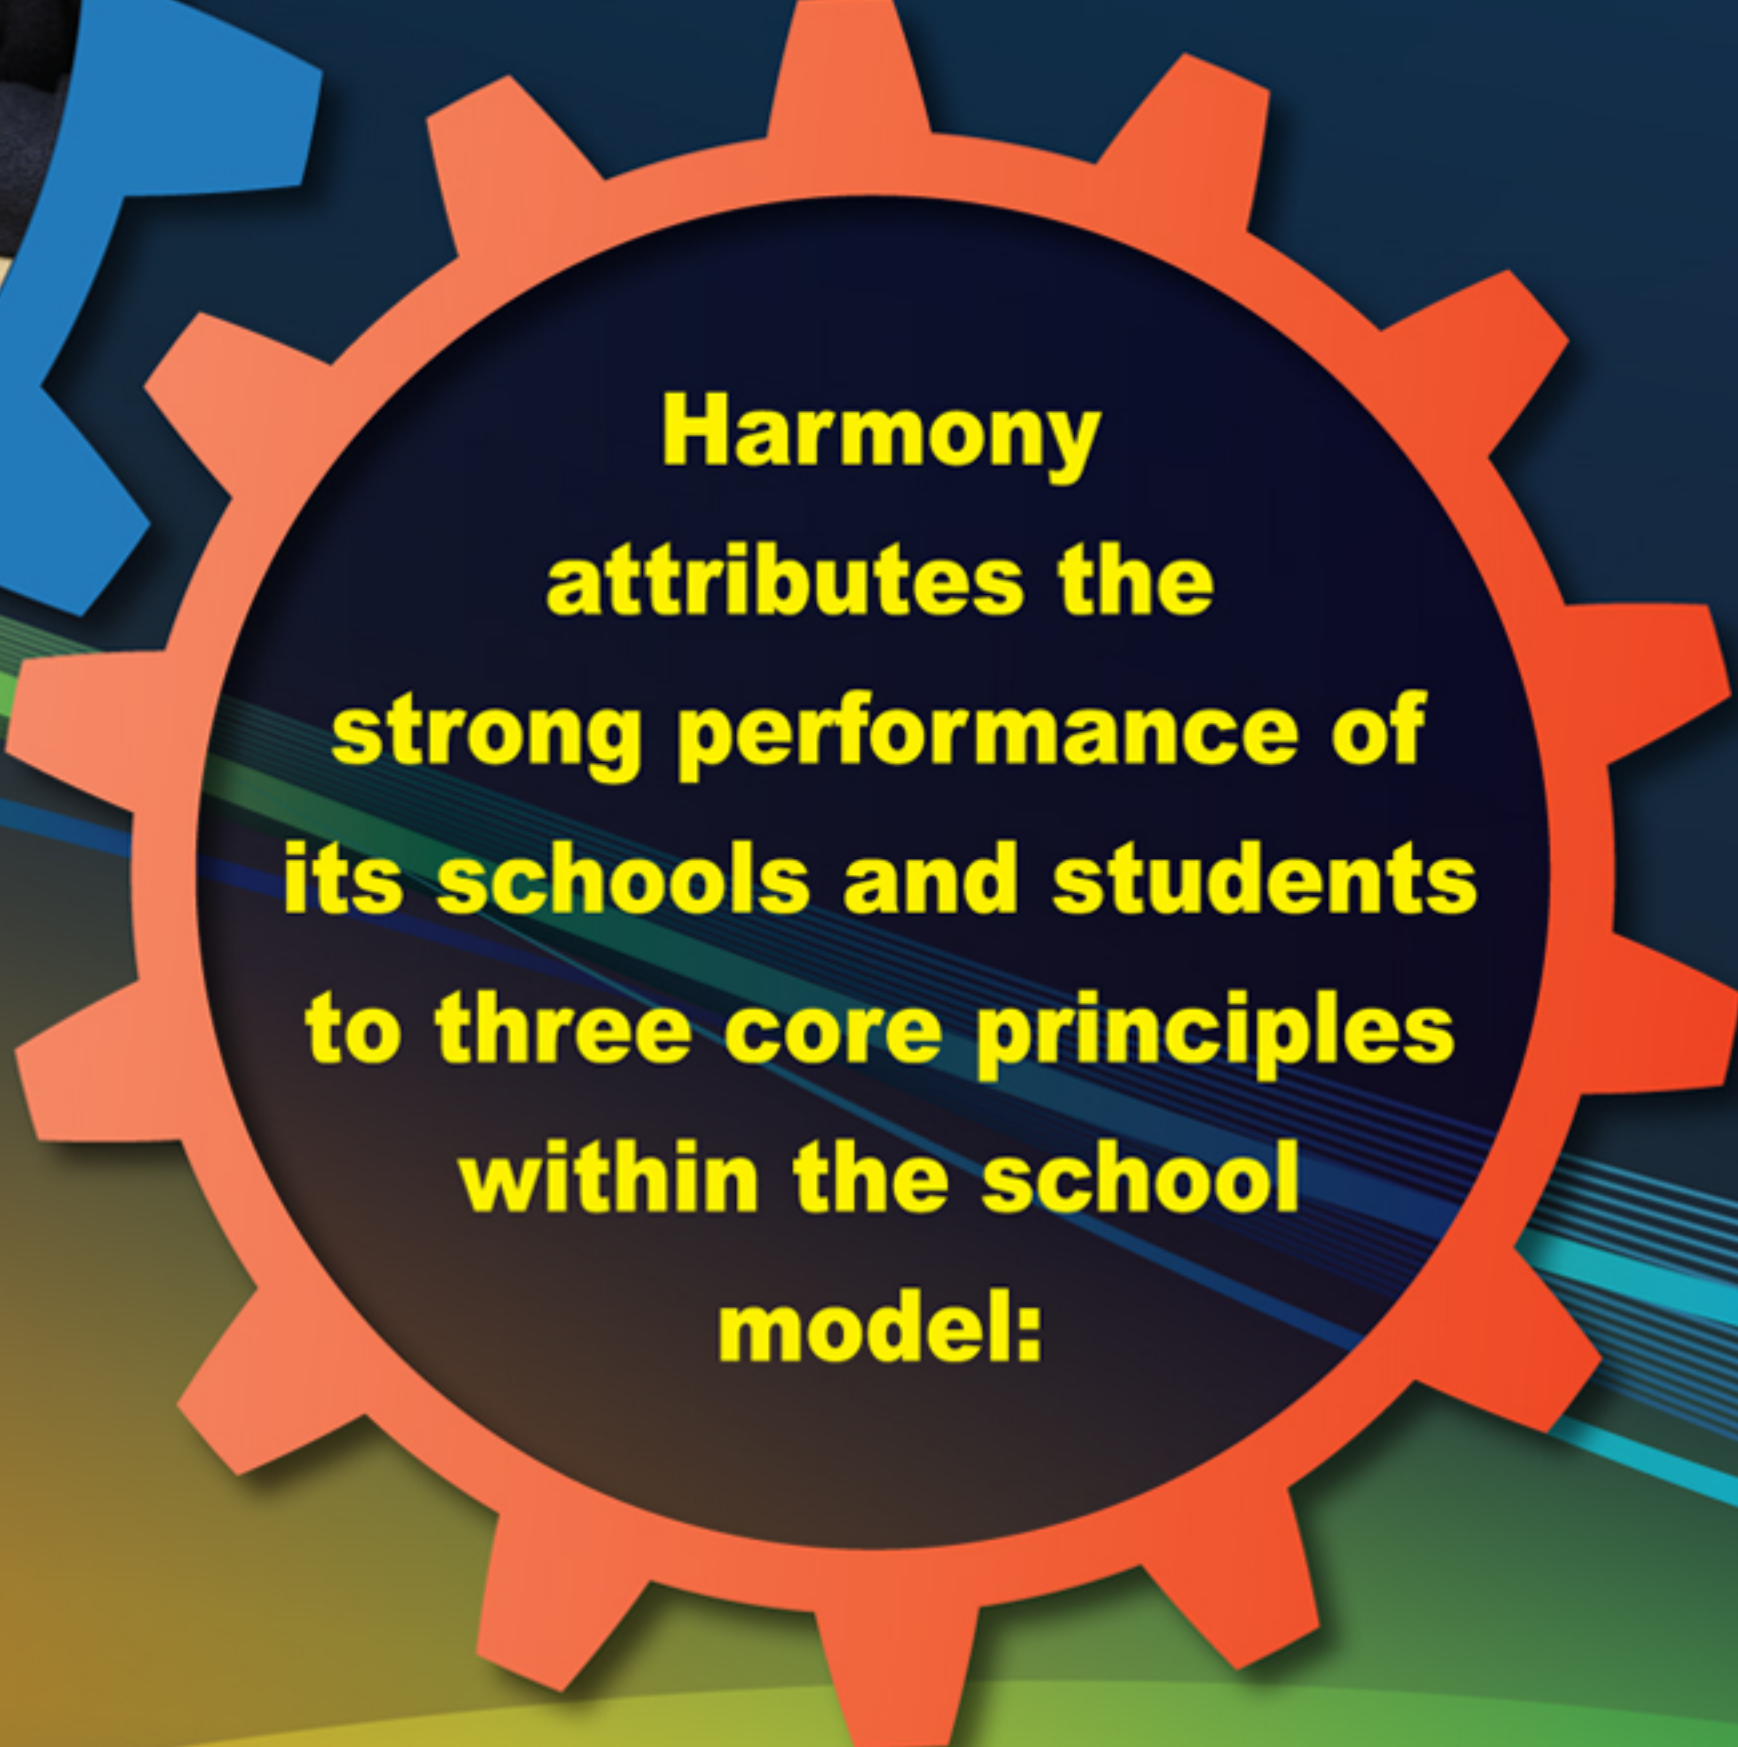

HPS is a highly recognized and award-winning charter school that hires top quality teachers, administrators, and other professionals.

HPS are high performing K-12 college preparatory charter schools that focus on math, science, engineering and computer technologies.

Our mission at Harmony is to prepare each student for higher education by providing a safe, caring and collaborative atmosphere featuring a quality, student-centered educational program with a strong emphasis on math, engineering, science and technology.

With a college acceptance rate of 100 percent, Harmony Public Schools have earned the reputation of providing a distinct, high-quality education with 46 campuses in Texas.

Harmony
attributes the
strong performance of
its schools and students
to three core principles
within the school
model:

A challenging math and science curriculum supported by theory; A focus on assessment across the school system; and, A culture of constructive competition, discipline and parental engagement.
